

****Dear Hiring Manager,****

I am writing to express my strong interest in the Operational Controls Oversight Senior Manager position at Aviva. With five years of progressive operations experience in financial services and a Master's degree in Investment & Risk Finance, I am confident in my ability to drive robust control frameworks and operational excellence.

In my current role at Morgan Stanley's Prime Brokerage division, I have developed deep expertise in trade settlement, reconciliation, and counterparty payment management. This experience has equipped me with a thorough understanding of operational risks, control design, and the importance of meticulous oversight across complex processes. My responsibilities encompass month-end close procedures and FX reporting, where I have consistently ensured accuracy and compliance while managing multiple stakeholder demands.

Prior to Morgan Stanley, I spent 2.5 years at Mphasis as an Operations Analyst, where I focused on process optimization and data validation. This foundation strengthened my analytical capabilities and reinforced my ability to identify control gaps and implement effective improvements.

I bring strong technical proficiency in Excel, VBA, and Bloomberg, combined with exceptional attention to detail and stakeholder management skills. My MSc in Investment & Risk Finance has provided me with the theoretical knowledge to complement my hands-on experience, enabling me to assess operational controls from both strategic and practical perspectives.

I am particularly drawn to Aviva's commitment to operational excellence and would welcome the opportunity to contribute to your control environment and risk mitigation initiatives.

Thank you for considering my application. I look forward to discussing how my experience can benefit your team.

****Yours sincerely,****

****Nidhi Shetty****
