

Dear Hiring Manager,

I am writing to express my strong interest in the Operational Resilience Specialist position at Aviva. With five years of progressive experience in financial operations and a Master's degree in Investment and Risk Finance, I am confident in my ability to contribute meaningfully to your resilience framework.

At Morgan Stanley, I developed a deep understanding of operational risk and business continuity within Prime Brokerage. My role managing trade settlement, reconciliation, and counterparty payments equipped me with expertise in identifying critical vulnerabilities and ensuring seamless operations under pressure. I implemented robust FX reporting processes and led month-end close procedures, which required meticulous attention to detail and proactive problem-solving-skills essential for building operational resilience.

My tenure at Mphasis further strengthened my capability to enhance operational effectiveness. I optimized critical processes, conducted comprehensive data validation, and managed cross-functional stakeholder relationships. This experience demonstrated my ability to assess systemic risks and implement sustainable improvements.

My technical proficiency in Excel, VBA, and Bloomberg, combined with my analytical mindset, positions me well to support Aviva's resilience initiatives. I am particularly drawn to this opportunity because operational resilience is increasingly vital in financial services, and I am eager to apply my regulatory understanding and process expertise to strengthen your organization's ability to withstand disruptions.

I would welcome the opportunity to discuss how my background in operations, risk awareness, and commitment to organizational excellence align with Aviva's objectives.

Yours sincerely,
Nidhi Shetty
