

****Cover Letter****

Dear Hiring Manager,

I am writing to express my strong interest in the PRM Operations Senior Analyst position at Aviva. With 2.5 years of specialist experience in prime brokerage operations at Morgan Stanley and a further 2.5 years in operations analysis, I am confident in my ability to deliver excellence in this role.

In my current position at Morgan Stanley's Glasgow office, I have developed deep expertise in trade settlement, reconciliation, and counterparty payment operations. My daily responsibilities encompass month-end close procedures, FX reporting, and complex trade reconciliation across multiple counterparties. This experience has equipped me with a thorough understanding of operational controls, risk management, and the precision required in prime brokerage environments.

Prior to Morgan Stanley, my time at Mphasis strengthened my analytical capabilities and process optimization skills. I successfully led data validation initiatives and stakeholder management across cross-functional teams, developing a strategic approach to operational challenges.

My technical proficiency includes advanced Excel and VBA programming, Bloomberg terminal navigation, and bespoke reporting systems. These tools, combined with my MSc in Investment & Risk Finance (Distinction), enable me to approach complex operational problems with both technical rigour and strategic insight.

I am particularly drawn to Aviva's commitment to operational excellence and customer-centric service delivery. I am eager to bring my settled operations expertise, analytical mindset, and proven track record of process improvement to contribute meaningfully to your PRM operations team.

Thank you for considering my application. I welcome the opportunity to discuss how my experience aligns with your requirements.

Yours faithfully,

Nidhi Shetty
