

Dear Hiring Manager,

I am writing to express my strong interest in the Fund Accounting Group Manager position at Citigroup. With 2.5 years of specialized experience in prime brokerage operations at Morgan Stanley and a proven track record of process optimization, I am confident in my ability to lead your fund accounting function with precision and strategic oversight.

In my current role at Morgan Stanley's Glasgow office, I have developed deep expertise in the core competencies this position demands. I manage complex trade settlement and reconciliation workflows, oversee counterparty payment processes, and ensure accurate FX reporting and month-end close procedures. This hands-on experience has equipped me to understand the operational challenges that fund accounting teams face and to drive solutions that enhance efficiency and compliance.

My background extends beyond day-to-day execution. During my tenure at Mphasis as an Operations Analyst, I led process optimization initiatives that improved data validation accuracy and strengthened stakeholder management across functions. I bring strong technical proficiency in Excel/VBA and Bloomberg, enabling me to automate workflows and extract actionable insights.

My MSc in Investment and Risk Finance (Distinction) from the University of Westminster complements my practical experience with rigorous financial knowledge, positioning me to make strategic contributions at the SVP level. I am particularly drawn to Citigroup's commitment to operational excellence and look forward to bringing my combination of technical expertise, leadership capability, and continuous improvement mindset to your team.

I would welcome the opportunity to discuss how my experience aligns with your needs.

Yours sincerely,
Nidhi Shetty
