

Dear Hiring Manager,

I am writing to express my strong interest in the Loans Agency - Deal Onboarding Intermediate Analyst position at Citigroup.

With 2.5 years of trade settlement and operations experience at Morgan Stanley's Prime Brokerage division, I have developed a comprehensive understanding of deal lifecycle management, reconciliation, and counterparty payment processes. This experience has equipped me with the technical expertise and attention to detail essential for seamless deal onboarding in the loans space.

My background spans critical operations functions including trade reconciliation, FX reporting, and month-end close procedures. I have consistently managed complex, high-volume transactions while maintaining accuracy and meeting tight deadlines. These competencies translate directly to the precision required for loans agency operations, where deal onboarding accuracy is paramount.

Prior to Morgan Stanley, I spent 2.5 years as an Operations Analyst at Mphasis, where I focused on process optimization and data validation. I identified operational inefficiencies and implemented solutions that enhanced workflow and reduced manual errors. I am confident this problem-solving approach will enable me to navigate and optimize deal onboarding procedures at Citigroup.

My technical proficiency in Excel, VBA, and Bloomberg, combined with my MSc in Investment and Risk Finance (Distinction), provides a strong analytical foundation for this role. I am well-versed in stakeholder management and thrive in fast-paced, detail-oriented environments.

I am excited about the opportunity to bring my operations expertise and commitment to excellence to Citigroup's Loans Agency team. I would welcome the chance to discuss how my experience aligns with your requirements.

Best regards,

Nidhi Shetty
