

Dear Hiring Manager,

I am writing to express my strong interest in the Operations Specialist position at Jane Street. With 2.5 years of trade operations experience at Morgan Stanley and a proven track record in process optimization, I am confident in my ability to contribute meaningfully to your operations team.

At Morgan Stanley's Prime Brokerage division, I developed deep expertise in trade settlement, reconciliation, and counterparty payment workflows. I managed complex month-end closes and FX reporting across multiple counterparties, ensuring accuracy and regulatory compliance under tight deadlines. This experience has equipped me with a thorough understanding of operational risk and the meticulous attention to detail essential for fast-paced trading environments.

My background extends beyond transactional operations. During my tenure at Mphasis, I spearheaded process optimization initiatives and data validation projects, improving efficiency and reducing errors through systematic analysis. These experiences shaped my analytical mindset and ability to identify operational bottlenecks before they impact business outcomes.

My technical proficiency in Excel/VBA, Bloomberg, and data analysis tools enables me to move beyond manual processes and build scalable solutions. Combined with my MSc in Investment and Risk Finance, this foundation allows me to understand the nuances of financial operations while contributing strategic insights.

Jane Street's reputation for operational excellence and innovation particularly resonates with me. I am excited about the opportunity to bring my technical skills, operational rigor, and collaborative approach to your team while continuing to grow in a dynamic environment.

Thank you for considering my application. I look forward to discussing how my experience aligns with your needs.

Yours sincerely,
Nidhi Shetty
