

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Investigator, Operations Analyst, Financial Crime role at Monzo Bank.

My five years of operations experience, combined with my advanced qualifications in finance, have equipped me with the analytical rigor and attention to detail essential for investigating financial crime. At Morgan Stanley, I spent 2.5 years in Prime Brokerage operations, where I managed complex trade settlement, reconciliation, and counterparty payment processes. This role honed my ability to identify discrepancies, validate data accuracy, and maintain rigorous controls across high-value transactions. I developed proficiency with Bloomberg and advanced Excel/VBA, enabling me to automate investigations and spot anomalies that others might miss.

Previously, at Mphasis, I worked as an Operations Analyst, optimizing processes and coordinating with multiple stakeholders to implement data validation frameworks. This experience taught me how to think systematically about operational risks and improve compliance through process design.

My MSc in Investment and Risk Finance (Distinction) deepened my understanding of financial regulations, risk management, and the sophisticated methods used to circumvent controls. I am particularly drawn to Monzo's commitment to financial integrity and its innovative approach to fintech compliance.

I am confident that my transaction monitoring experience, combined with my analytical mindset and stakeholder management capabilities, will enable me to excel in identifying suspicious patterns and investigating financial crime effectively. I am eager to bring this expertise to your growing compliance team.

Thank you for considering my application. I welcome the opportunity to discuss how I can contribute to Monzo's mission.

Yours sincerely,

Nidhi Shetty
