

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Strategy and Operations Manager position at Monzo Bank. With five years of progressive experience in financial operations and process optimization, combined with a Master's degree in Investment and Risk Finance, I am confident in my ability to drive strategic operational excellence at Monzo.

In my current role at Morgan Stanley's Prime Brokerage division, I have managed complex trade settlement and reconciliation processes, overseeing counterparty payments and FX reporting across multiple systems. This experience has equipped me with deep knowledge of financial operations workflows, risk management, and the importance of accuracy in high-volume environments. I have successfully led month-end close procedures, ensuring compliance and operational efficiency.

Prior to Morgan Stanley, I spent 2.5 years at Mphasis as an Operations Analyst, where I focused on process optimization and data validation. I identified inefficiencies, implemented improvements, and managed stakeholder relationships across business units. These experiences have strengthened my ability to balance operational rigor with innovation.

What attracts me to Monzo is the opportunity to apply my technical and analytical skills in a fast-paced fintech environment. Your focus on customer-centric operations and technological advancement aligns with my commitment to driving efficiency and scalability. I am excited about supporting your strategic objectives through operational transformation and data-driven decision-making.

My proficiency in Excel, VBA, and Bloomberg, combined with my strong analytical and problem-solving capabilities, positions me well to contribute meaningfully to your team. I would welcome the opportunity to discuss how my experience can support Monzo's continued growth and operational excellence.

Thank you for considering my application.

Yours sincerely,
Nidhi Shetty
