I am writing to express my strong interest in the Account Administration and AML Operations Supervisor role. With 2.5 years of experience in Prime Brokerage operations at Morgan Stanley, Glasgow, combined with my MSc in Investment & Risk Finance (Distinction) from the University of Westminster, I bring a solid foundation in financial operations, regulatory compliance, and process oversight that aligns directly with this position.

At Morgan Stanley, I managed trade settlement, reconciliation, and corporate actions across the full trade lifecycle, working within strict regulatory frameworks and ensuring accuracy in high-volume, time-sensitive environments. This experience honed my attention to detail, my understanding of client account administration, and my ability to identify and escalate discrepancies—skills directly transferable to AML operations and account oversight. My proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon enables me to analyse data efficiently and support robust compliance processes.

Having briefly pivoted into an Advertising Account Manager role, I developed additional strengths in team coordination, client relationship management, and workflow supervision. I am now eager to return to financial services, where my passion and expertise lie, and this supervisory role represents the ideal opportunity to combine my operational finance background with the leadership and analytical capabilities I have strengthened throughout my career.

I do require Skilled Worker visa sponsorship and would welcome the opportunity to discuss how my experience and dedication can contribute to your team's success. I would be delighted to explore this further at your convenience.
