I am writing to express my strong interest in the Analyst, Regulatory Trade Reporting (12-month FTC) position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I am well-positioned to contribute meaningfully to your regulatory reporting function.

At Morgan Stanley in Glasgow, I developed deep expertise across the trade lifecycle-handling trade settlement, daily reconciliations, and corporate actions processing. This role required meticulous attention to detail, strict adherence to deadlines, and close collaboration with front office, middle office, and external counterparties. I became highly proficient in identifying and resolving trade breaks, ensuring data accuracy, and working within tightly regulated frameworks-skills directly transferable to regulatory trade reporting obligations such as EMIR, MiFIR, and SFTR.

My technical toolkit includes advanced Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon, enabling me to manage large datasets, automate reporting processes, and perform quality assurance checks efficiently. My academic grounding in risk and investment finance further strengthens my understanding of the derivative instruments and transaction types central to regulatory reporting. Though I briefly explored a different sector, I am fully committed to returning to financial services where my experience and passion lie.

I would welcome the opportunity to discuss how my background aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. Thank you for your consideration-I look forward to hearing from you.
