I am writing to express my strong interest in the Associate, Middle Office - EMEA Equity position. With 2.5 years of direct middle/back office experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I am well-positioned to contribute meaningfully to your EMEA equity operations from day one.

At Morgan Stanley in Glasgow, I managed end-to-end trade settlement and reconciliation across equity and prime brokerage products, processed corporate actions, and resolved trade breaks within tight deadlines. I developed a thorough understanding of the post-trade lifecycle and built proficiency in Bloomberg, CTM, and Refinitiv Eikon, alongside advanced Excel/VBA skills that I used to streamline daily workflows and reporting. Working within a global team across multiple time zones gave me strong exposure to EMEA market conventions and settlement protocols.

I am currently in an advertising account management role, which has sharpened my stakeholder communication and client service skills. However, my passion and expertise lie firmly in financial operations, and I am eager to return to the industry where I built my career foundation. This role aligns precisely with my experience and long-term ambitions in capital markets operations.

I hold a Skilled Worker visa and would require sponsorship. I would welcome the opportunity to discuss how my hands-on middle office experience and technical capabilities can add value to your team.
