I am writing to express my strong interest in the Client Reporting/Client Services position. With 2.5 years of experience at Morgan Stanley's Prime Brokerage division in Glasgow, I bring a solid foundation in post-trade operations, client-facing processes, and the precision that client reporting demands.

At Morgan Stanley, I was responsible for trade settlement, daily reconciliation, and corporate actions processing across multiple asset classes. This role required meticulous attention to detail, strict adherence to deadlines, and consistent communication with internal stakeholders and external clients to resolve discrepancies. I developed advanced proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon-tools that directly support the data accuracy and reporting efficiency this role requires. My MSc in Investment & Risk Finance (Distinction) from the University of Westminster further strengthens my analytical capabilities and understanding of financial products.

I am currently working as an Advertising Account Manager, which has sharpened my client relationship management, stakeholder communication, and ability to deliver tailored reporting to demanding clients. I am now eager to return to financial services, where my technical skills and operations experience can add immediate value. The combination of my front-to-back trade lifecycle knowledge and client servicing experience positions me well to produce accurate, timely client reports while building trusted relationships.

I would welcome the opportunity to discuss how my background aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. I look forward to hearing from you.
