I am writing to express my strong interest in the Client Support Specialist position. With 2.5 years of experience at Morgan Stanley's Prime Brokerage division in Glasgow, I bring a solid foundation in trade settlement, reconciliation, and post-trade operations that translates directly into effective client support within financial services.

At Morgan Stanley, I worked at the intersection of clients and operations-resolving trade breaks, managing corporate actions, and ensuring seamless settlement across complex multi-asset portfolios. This role demanded precision, clear communication under pressure, and the ability to explain technical processes to stakeholders at every level. I developed a deep understanding of the trade lifecycle and built strong relationships with both internal teams and external counterparties, skills that are central to client support excellence.

My technical toolkit-including advanced Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon-enables me to troubleshoot issues efficiently and provide data-driven solutions. Complementing this, my MSc in Investment & Risk Finance (Distinction) from the University of Westminster gives me the analytical framework to understand client needs in context. My current role as an Advertising Account Manager has further sharpened my client relationship management and problem-solving abilities, and I am eager to apply these combined skills back within finance.

I would welcome the opportunity to discuss how my experience aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. Thank you for your consideration-I look forward to hearing from you.
