I am writing to express my strong interest in the Fund Accounting (Operations) role. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I am well-positioned to contribute meaningfully to your team from day one.

At Morgan Stanley in Glasgow, I developed deep expertise across the trade lifecycle, including daily trade settlement, multi-currency reconciliation, corporate actions processing, and NAV-impacting workflows. I worked closely with fund administrators, counterparties, and internal stakeholders to ensure accurate and timely resolution of breaks-skills directly transferable to fund accounting operations. My proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon enabled me to streamline processes and maintain precision under tight deadlines in a high-volume environment.

I am currently working as an Advertising Account Manager, a role that has sharpened my client communication, project management, and problem-solving abilities. However, my passion remains firmly in financial operations, and I am eager to return to the industry where my technical expertise and analytical mindset are best applied. This role represents the ideal opportunity to leverage my Morgan Stanley foundation within a fund accounting context.

I would welcome the opportunity to discuss how my experience aligns with your team's needs. I do require Skilled Worker visa sponsorship and would be happy to provide further details. Thank you for your consideration-I look forward to hearing from you.
