I am writing to express my strong interest in the Fund Accounting / Middle Office position. With 2.5 years of experience at Morgan Stanley's Prime Brokerage division in Glasgow, I bring a solid foundation in trade settlement, daily reconciliation, post-trade operations, and corporate actions processing-skills directly aligned with the demands of fund accounting and middle office functions.

At Morgan Stanley, I developed a meticulous approach to ensuring accuracy across the trade lifecycle, from execution through to settlement and NAV-impacting processes. I regularly reconciled positions and cash across multiple counterparties, investigated and resolved breaks, and supported seamless coordination between front office, back office, and external stakeholders. My advanced proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon enables me to work efficiently within data-intensive environments and contribute to process improvements from day one.

I hold an MSc in Investment & Risk Finance (Distinction) from the University of Westminster, which strengthened my understanding of portfolio valuation, financial instruments, and risk frameworks-knowledge I am eager to apply within a fund accounting context. After a brief period in a commercial role, I am committed to returning to financial services, where my technical expertise and analytical mindset are best utilised.

I would require Skilled Worker visa sponsorship and would welcome the opportunity to discuss how my experience and dedication can add value to your team. I am available for an interview at your convenience and look forward to hearing from you.
