I am writing to express my strong interest in the Fund Accounting and Operations role within your Fund of Funds / Multi Family Office practice. With 2.5 years of direct experience in Prime Brokerage operations at Morgan Stanley, Glasgow, combined with a Master's degree in Investment & Risk Finance (Distinction) from the University of Westminster, I bring a solid foundation in the operational infrastructure that underpins hedge fund and private equity fund servicing.

At Morgan Stanley, I worked across trade settlement, daily reconciliation, corporate actions processing, and post-trade operations supporting hedge fund clients. This role required meticulous attention to detail, an understanding of multi-asset class trade lifecycles, and the ability to resolve breaks under tight deadlines-skills directly transferable to fund accounting and NAV production within a fund of funds environment. I developed advanced proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon, enabling me to streamline workflows and maintain data integrity across complex portfolios.

I am eager to return to financial operations after a brief period in a commercial role that sharpened my client management and communication skills. The multi-strategy, multi-manager nature of this position aligns perfectly with my experience navigating the operational complexities of prime brokerage, and I am motivated to deepen my expertise in fund-level accounting, investor reporting, and private equity waterfall structures.

I would welcome the opportunity to discuss how my background can contribute to your team. I do require Skilled Worker visa sponsorship and am happy to provide further details at your convenience.
