I am writing to express my strong interest in the Global Offer Manager - Enterprise Operations and Customer Service position. With 2.5 years of experience in Prime Brokerage operations at Morgan Stanley and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in enterprise operations, client service, and process optimisation that aligns well with this role.

At Morgan Stanley in Glasgow, I managed end-to-end trade settlement, reconciliation, and corporate actions across global markets, consistently ensuring accuracy and efficiency within tight deadlines. I collaborated with cross-functional teams-including client services, technology, and risk-to resolve complex operational issues and improve workflows. This experience developed my ability to manage competing priorities, communicate effectively with stakeholders at all levels, and deliver operational excellence in a fast-paced, global environment.

My technical proficiency in Excel/VBA, Bloomberg, CTM, and Refinitiv Eikon enables me to analyse data, identify inefficiencies, and support offer management with a structured, detail-oriented approach. Having worked across the full trade lifecycle, I understand how enterprise operations intersect with customer service delivery and how to translate operational capabilities into compelling client solutions. My current role as an Advertising Account Manager has further sharpened my stakeholder management, strategic communication, and project coordination skills-all directly transferable to managing global offers.

I am eager to bring my combined operational expertise and client-facing experience back into the financial services space. I would welcome the opportunity to discuss how I can contribute to your team. Please note I require Skilled Worker visa sponsorship.

I look forward to hearing from you.
