I am writing to express my strong interest in the Manager, Contracting Operations position within Deloitte Legal. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's in Investment & Risk Finance (Distinction), I bring a solid foundation in financial services operations that translates directly to managing complex contracting workflows in a legal operations environment.

At Morgan Stanley in Glasgow, I managed end-to-end trade settlement, reconciliation, and corporate actions processing across multiple asset classes. This role demanded meticulous attention to detail, strict adherence to regulatory frameworks, and the ability to coordinate across teams under tight deadlines-skills that are directly applicable to overseeing contracting operations, managing documentation lifecycles, and ensuring compliance within Deloitte Legal's client engagements. My advanced proficiency in Excel/VBA, combined with experience using platforms like Bloomberg and CTM, has equipped me to drive process improvements and leverage technology to enhance operational efficiency.

Having briefly stepped into an Advertising Account Manager role, I have strengthened my client relationship management, stakeholder communication, and project coordination capabilities. I am now firmly committed to returning to financial and professional services operations, where my technical expertise and commercial awareness can deliver the most impact. The opportunity to contribute to Deloitte Legal's contracting operations-combining operational rigour with legal service delivery-is an ideal fit for my background and career aspirations.

I would welcome the opportunity to discuss how my experience aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. Thank you for your consideration.
