I am writing to express my strong interest in the Manager, Treasury Markets position. With 2.5 years of experience in Prime Brokerage operations at Morgan Stanley and an MSc in Investment & Risk Finance (Distinction) from the University of Westminster, I bring a solid foundation in financial markets that aligns well with the demands of treasury operations.

At Morgan Stanley Glasgow, I developed deep expertise across the trade lifecycle—from execution through settlement and reconciliation—while managing corporate actions and resolving complex breaks across multiple asset classes. This role sharpened my understanding of market instruments, counterparty risk, and the operational precision that treasury functions demand. My proficiency with Bloomberg, Refinitiv Eikon, CTM, and advanced Excel/VBA enables me to analyse market data efficiently and support decision-making in fast-paced environments.

Having briefly stepped into an advertising account management role, I am now firmly committed to returning to financial services, where my technical skills and passion for markets are best applied. The Manager, Treasury Markets role represents the ideal next step—allowing me to leverage my operational expertise and quantitative training in a front-office-adjacent capacity focused on liquidity, funding, and market risk.

I would welcome the opportunity to discuss how my experience can contribute to your team's objectives. I do require Skilled Worker visa sponsorship and am happy to provide further details on this. I look forward to hearing from you.
