I am writing to express my strong interest in the Operations Analyst position. With 2.5 years of direct experience in Prime Brokerage Operations at Morgan Stanley, Glasgow, I am eager to return to the finance operations space where my skills and passion are best applied.

At Morgan Stanley, I managed end-to-end trade settlement and reconciliation across equities and fixed income, processed corporate actions, and resolved trade breaks within tight deadlines. I developed a deep understanding of the post-trade lifecycle and built strong working relationships with counterparties, custodians, and internal teams. My advanced Excel/VBA skills allowed me to streamline reporting processes and improve operational efficiency, while daily use of Bloomberg, CTM, and Refinitiv Eikon gave me fluency in the tools that underpin modern operations functions.

I hold an MSc in Investment & Risk Finance (Distinction) from the University of Westminster, which complements my practical experience with a strong analytical and quantitative foundation. I am currently working as an Advertising Account Manager, which has sharpened my client management and communication skills, but I am firmly committed to building my long-term career in financial services operations where I can add the most value.

I should note that I would require Skilled Worker visa sponsorship. I am confident that my specialist experience and immediate ability to contribute make a strong case for this support. I would welcome the opportunity to discuss how my background aligns with your team's needs and would be grateful for the chance to interview.

Thank you for your time and consideration - I look forward to hearing from you.
