I am writing to express my strong interest in the Operations Manager position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division in Glasgow, I bring a solid foundation in trade settlement, reconciliation, corporate actions processing, and end-to-end trade lifecycle management-skills directly applicable to this role.

At Morgan Stanley, I managed daily trade settlement workflows across multiple asset classes, resolved complex breaks through investigation and stakeholder coordination, and consistently met strict deadlines in a high-volume, fast-paced environment. I developed advanced Excel/VBA solutions to streamline reconciliation processes, reducing manual effort and improving accuracy. My proficiency with Bloomberg, CTM, and Refinitiv Eikon, combined with my MSc in Investment & Risk Finance (Distinction) from the University of Westminster, gives me both the technical capability and analytical rigour to drive operational efficiency and support strategic improvements.

I am currently working as an Advertising Account Manager, where I have sharpened my client relationship management, project coordination, and team leadership skills. However, my passion remains firmly in financial operations, and I am eager to return to a role where I can leverage my core expertise while contributing to process optimisation and operational excellence at a senior level.

I would welcome the opportunity to discuss how my experience aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. I look forward to hearing from you.

Best regards,
Nidhi Shetty
