I am writing to express my strong interest in the Renewal Operations Manager position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in operational workflows, client lifecycle management, and process efficiency that aligns closely with the demands of this role.

At Morgan Stanley in Glasgow, I managed trade settlement and reconciliation processes across multiple asset classes, ensuring accuracy and timeliness within strict regulatory frameworks. I handled corporate actions processing, coordinated with internal and external stakeholders to resolve discrepancies, and developed automated tracking solutions using advanced Excel and VBA. This experience honed my ability to manage high-volume operational cycles - directly transferable to overseeing renewal pipelines, ensuring timely execution, and maintaining strong client relationships.

My current role as an Advertising Account Manager has further strengthened my client retention and renewal capabilities. I manage ongoing client relationships, coordinate cross-functional teams to deliver on commitments, and track contract timelines to maximise retention rates - skills that mirror the core responsibilities of a Renewal Operations Manager. I am eager to bring this combined expertise back into financial services, where my technical proficiency with Bloomberg, CTM, and Refinitiv Eikon adds immediate operational value.

I would welcome the opportunity to discuss how my experience can contribute to your team's success. I do require Skilled Worker visa sponsorship and am happy to provide further details on this. I look forward to hearing from you.
