I am writing to express my strong interest in the Sales Associate - Asset Servicing role. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in asset servicing that I am eager to apply in a client-facing sales capacity.

At Morgan Stanley in Glasgow, I managed trade settlement, reconciliation, and corporate actions processing across complex product sets, developing deep expertise in the trade lifecycle and operational workflows that underpin asset servicing. This hands-on experience means I understand the challenges clients face and can speak credibly to solutions. My proficiency with Bloomberg, CTM, Refinitiv Eikon, and advanced Excel/VBA further enables me to analyse client needs efficiently and support data-driven conversations.

I am currently working as an Advertising Account Manager, where I have sharpened my client relationship management, commercial awareness, and consultative communication skills-competencies that translate directly into a sales associate role. I am now focused on returning to financial services, where my technical knowledge and client-facing abilities converge most effectively. I am particularly drawn to this opportunity because it sits at the intersection of operational expertise and relationship-driven sales, which aligns perfectly with my career trajectory.

I should note that I require Skilled Worker visa sponsorship. I would welcome the opportunity to discuss how my blend of asset servicing knowledge and client management experience can contribute to your team's growth.

Thank you for your consideration-I look forward to the possibility of connecting.
