I am writing to express my strong interest in the Securities Clearing Specialist position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division in Glasgow, I bring direct, hands-on expertise in trade settlement, clearing, and reconciliation that aligns closely with this role's requirements.

At Morgan Stanley, I managed end-to-end settlement processes across equities and fixed income, resolved trade breaks and fails, processed corporate actions, and ensured timely clearing across multiple counterparties and CSDs. I developed a thorough understanding of the trade lifecycle, from execution through to final settlement, and consistently met tight deadlines in a high-volume, fast-paced environment. My work required close collaboration with traders, custodians, and middle-office teams to mitigate risk and ensure operational accuracy.

I hold an MSc in Investment & Risk Finance (Distinction) from the University of Westminster and am proficient in Bloomberg, CTM, Refinitiv Eikon, and advanced Excel/VBA-tools I used daily to streamline reconciliation workflows and flag exceptions. After a brief period in a different sector, I am eager to return to financial services operations, where my technical skills and market knowledge can deliver immediate value.

I would welcome the opportunity to discuss how my clearing and settlement background can contribute to your team. I do require Skilled Worker visa sponsorship and would be happy to provide further details. I look forward to hearing from you.
