I am writing to express my strong interest in the Settlements Clerk position. With 2.5 years of direct experience in trade settlement and post-trade operations at Morgan Stanley's Prime Brokerage division in Glasgow, I am confident I can make an immediate and meaningful contribution to your team.

At Morgan Stanley, I was responsible for end-to-end trade settlement, daily reconciliation, and corporate actions processing across multiple asset classes. I developed a thorough understanding of the trade lifecycle, from execution through to final settlement, and consistently ensured accuracy and timeliness in a high-volume, fast-paced environment. My proficiency with industry platforms including Bloomberg, CTM, and Refinitiv Eikon, combined with advanced Excel and VBA skills, enabled me to streamline workflows and reduce manual errors within my team.

I am currently working as an Advertising Account Manager, a role that has sharpened my communication, stakeholder management, and problem-solving abilities. However, my passion lies firmly in financial operations, and I am eager to return to the settlements space where my technical expertise and operational experience can be fully utilised. My MSc in Investment & Risk Finance (Distinction) from the University of Westminster further underpins my understanding of financial markets and instruments.

I should note that I would require Skilled Worker visa sponsorship for this role and am happy to discuss this further. I would welcome the opportunity to speak with you about how my experience aligns with your needs and how I can contribute to your operations team from day one.

Thank you for your consideration - I look forward to hearing from you.
