I am writing to express my strong interest in the Tax Valuations Manager position. With 2.5 years of experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in financial analysis, valuation processes, and regulatory precision that aligns well with this role.

At Morgan Stanley, I developed expertise in trade settlement, reconciliation, and corporate actions processing-work that demanded meticulous attention to detail, an understanding of complex financial instruments, and the ability to navigate multi-jurisdictional requirements. I regularly collaborated with cross-functional teams to resolve discrepancies and ensure compliance with regulatory frameworks, skills directly transferable to managing tax valuations and stakeholder engagement. My advanced proficiency in Excel/VBA, Bloomberg, and Refinitiv Eikon enables me to analyse large datasets efficiently and deliver accurate, well-supported valuations.

Having briefly explored a different career path, I am now firmly committed to returning to financial services, where my analytical strengths and passion for complex problem-solving are best utilised. I am eager to bring my technical expertise and operational rigour to your team, contributing to high-quality tax valuation work from day one.

I would welcome the opportunity to discuss how my experience can add value to your organisation. Please note that I would require Skilled Worker visa sponsorship. I look forward to hearing from you.
