I am writing to express my strong interest in the Transfer Agent Oversight Associate position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in the oversight, reconciliation, and controls framework that this role demands.

At Morgan Stanley in Glasgow, I was responsible for trade settlement, daily reconciliation, and corporate actions processing across multiple asset classes. This work required meticulous attention to detail, adherence to strict deadlines, and close collaboration with counterparties and internal stakeholders to resolve discrepancies - skills directly transferable to monitoring and overseeing transfer agent activities, ensuring NAV accuracy, and maintaining robust investor servicing standards. My proficiency in Excel/VBA, Bloomberg, and CTM enabled me to identify breaks efficiently and support process improvements within the operations team.

Having briefly explored a different career path, I am now firmly committed to returning to financial services, where my passion and expertise lie. The Transfer Agent Oversight role is an ideal fit because it combines my operational rigour with my understanding of fund administration and investor lifecycle processes. I am eager to apply my experience in a governance and oversight capacity, contributing to service quality and regulatory compliance.

I would welcome the opportunity to discuss how my background aligns with your team's needs. I do require Skilled Worker visa sponsorship and am happy to provide further details on this. Thank you for your consideration - I look forward to hearing from you.
