I am writing to express my strong interest in the Travel Payments Consultant position. With 2.5 years of post-trade operations experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in payments processing, settlement workflows, and financial reconciliation that translates directly to this role.

At Morgan Stanley in Glasgow, I managed end-to-end trade settlement and reconciliation across multiple asset classes, ensuring accurate and timely payment flows while resolving discrepancies under tight deadlines. I developed expertise in navigating complex payment lifecycles, coordinating with global counterparties, and maintaining rigorous compliance standards-skills that are essential for consulting on travel payment solutions. My proficiency in Excel/VBA, Bloomberg, and trade processing platforms demonstrates my ability to quickly master new systems and drive process improvements.

What excites me about this opportunity is the chance to apply my financial operations expertise within the travel payments space, where precision, client service, and an understanding of cross-border transaction flows are critical. Having worked across international markets at Morgan Stanley, I am well-versed in multi-currency settlements and the operational challenges they present. I am eager to bring this consultative, detail-oriented approach to your team.

I would welcome the opportunity to discuss how my experience aligns with your needs. I do require Skilled Worker visa sponsorship and am happy to provide further details. I look forward to hearing from you.
