I am writing to express my strong interest in the Treasury Officer position (9-month FTC). With 2.5 years of experience at Morgan Stanley's Prime Brokerage division and a Master's degree in Investment & Risk Finance (Distinction), I bring a solid foundation in financial operations that aligns well with treasury functions.

At Morgan Stanley in Glasgow, I managed trade settlement, daily reconciliations, and corporate actions processing across multiple asset classes. This role required meticulous attention to cash and position accuracy, close collaboration with counterparties, and swift resolution of discrepancies—skills directly transferable to treasury operations including cash management, liquidity monitoring, and funding activities. I developed advanced proficiency in Excel/VBA, Bloomberg, and CTM, enabling me to streamline workflows and maintain precision under tight deadlines.

My academic background in Investment & Risk Finance reinforces my practical experience, providing me with a strong understanding of financial markets, risk management frameworks, and capital allocation principles that underpin effective treasury management. I am eager to return to financial services after a brief period in a commercial role that sharpened my stakeholder management and communication skills.

I am available to start promptly and would welcome the opportunity to contribute to your team. I should note that I require Skilled Worker visa sponsorship, and I would be happy to discuss this further. I look forward to the opportunity to speak with you.
