

Dear Hiring Manager,

I am writing to express my interest in the Liquidity Trade Operations Analyst role supporting Goldman Sachs' Repo Trading and Sales desks. My background in fixed income settlement and middle office operations at Morgan Stanley maps closely to the responsibilities outlined for this position.

During my tenure at Morgan Stanley, I performed daily position reconciliations, managed electronic and manual client allocations, and monitored risk exposure from unbooked and unmatched trades — escalating issues promptly to prevent settlement failures. I developed a strong operational management track record, handling multiple concurrent processes across global markets while maintaining precision under tight deadlines.

I am proficient in Excel and have built reconciliation and reporting tools that streamlined post-trade workflows. My knowledge of securities and repo products, combined with assertive stakeholder engagement across regions and business disciplines, makes me well-positioned to support your Repo Trading desk. I would welcome the opportunity to contribute to process development and re-engineering initiatives within Goldman Sachs' Global Banking & Markets division.

Kind regards, Nidhi Shetty
