

Dear Hiring Manager,

I am applying for the Associate, Middle Office - EMEA Equity position at Balyasny Asset Management. With over two years of trade support and middle office experience at Morgan Stanley's Prime Brokerage, I meet the core requirements for this role and am excited about the opportunity to work at a leading multi-manager hedge fund.

My experience encompasses the full equity and equity swaps trade lifecycle — from trade capture and pre-matching through corporate actions (both mandatory and voluntary) to final settlement. I have worked daily with Bloomberg and am familiar with CTM workflows for trade matching. At Morgan Stanley, I collaborated with portfolio managers, traders, and account managers to reconcile positions, monitor P&L exposure, and ensure timely settlement across EMEA and global markets.

I am drawn to Balyasny's collaborative culture and the opportunity to support equity strategies at a firm known for operational excellence. I would bring both the technical knowledge and the proactive problem-solving mindset needed to excel in this role.

Kind regards, Nidhi Shetty
