

Dear Hiring Manager,

I am applying for the Middle Office Analyst (Equities) position at the hedge fund you are recruiting for. With over two years of experience in an operations role at Morgan Stanley's Prime Brokerage, I bring direct expertise in equity trade lifecycle management, corporate actions, and settlement across global markets.

My experience includes managing relationships with outsourced service providers, reconciling positions and P&L, and using Bloomberg daily for trade matching and market data. I am comfortable operating in a hedge fund client-facing environment and understand the operational demands of supporting equity trading desks.

I would appreciate the opportunity to discuss this role further and understand how my background aligns with the fund's specific requirements.

Kind regards, Nidhi Shetty
