Dear Hiring Manager,

I am writing to apply for the **[Role Title]** position at **[Company Name]**. With hands-on experience in prime brokerage settlement, trade lifecycle management, and risk operations at Morgan Stanley, I am confident in my ability to contribute to your team from day one.

What I bring:

At Morgan Stanley's Prime Brokerage in Glasgow, I managed pre-matching and settlement of fixed income and equity trades across US, EMEA, and APAC markets for hedge fund and institutional clients. My key contributions included:

- Improving Straight-Through Processing (STP) rates by 10% by building Python and Excel reconciliation tools that auto-flagged mismatches before settlement deadlines.
- Resolving complex settlement failures involving tri-party repos and cross-border custody transfers, reducing average resolution time from 3 days to same-day for priority clients.
- Monitoring post-trade exceptions and escalating market and regulatory risks, ensuring compliance with CSDR and T+1 settlement requirements.

Why this role:

[1-2 sentences on why this specific role and company appeal to you. Reference something specific from the job description or the company's business that connects to your experience.]

Technical skills:

I am proficient in Python (pandas, numpy, automation scripting), advanced Excel (VBA, Power Query), Bloomberg Terminal, and Refinitiv Eikon. I hold an MSc in Investment and Risk Finance (Distinction) from the University of Westminster, with coursework in financial modelling, portfolio management, and risk management.

I would welcome the opportunity to discuss how my experience aligns with your team's needs. I am available for a conversation at your convenience.

Kind regards,

Nidhi Shetty
