Hi Alexander,

I came across the Trade Support role at the \$30bn+ hedge fund you're recruiting for and would like to express my interest. I have over two years of prime brokerage trade support experience at Morgan Stanley, managing equity and fixed income settlement across US, EMEA, and APAC markets for hedge fund clients. My skills include Python automation, Bloomberg, and advanced Excel, and I improved STP rates by 10% through reconciliation tooling.

I'd welcome a conversation to learn more about the role. I've attached my CV for reference. Would you have time for a brief call this week?

Best regards,

Nidhi Shetty
